

conceptVIZ patent drawings

Communication, with graphics and animation

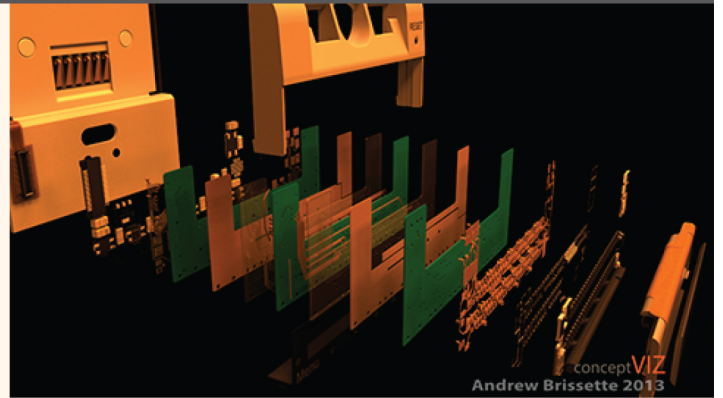

Animations for patent litigations

A picture is worth a thousand words, an animation is worth even more. concept VIZ LLC can help your firm deliver your patent litigation cases, through animation.

Communication, with graphics and animation. Is it a bolt and a fastener, a cog in a wheel, or a multi-billion dollar state of the art system design?

We can help your firm communicate products, ideas and exactly how those products and ideas infringe on your client's patents, in vivid animation, when words, even language barriers are tough enough to explain case details extremely technical in nature.

A well conceived technical animation is just the edge your firm might need on the next big case, take 75 seconds of your time, go to conceptVIZ.com and press play, we won't waste your time. On your next case, we won't waste the jury's time either.

Patent application drawings

We make intricately detailed patent drawings conforming to standards of the U.S. Patent Office (USPTO), and the European Patent Office (EPO). Additionally upon client needs, world class patent drawings conforming to any standard needed by any patent office in the world.
